West Virginia University

WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset Release Agreement

Requestor Name: _____

Introduction

The goal of ***WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset*** *Collection* project is to develop new techniques, technology and algorithms for automatic recognition and iris presentation attack detection. Part of this project is the effort to collect the biometric features and store them as **WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset**. This biometric dataset is meant to aid researchers in their work, to develop, train, test and evaluate the iris presentation attack detection algorithms.

Release of the database

Dataset records are made available to researchers other than those specifically listed on the West Virginia University IRB Protocol Statement, only after the receipt of a completed and signed dataset release agreement. All the records are available on a case-by-case basis. Dataset records are released via an Internet site, CD or other media. All requests for the dataset are submitted to the Principal Investigator. By signing this agreement, the requestor agrees to comply with the restrictions listed below and use the data consistent with the terms of the WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset Collection Subject Release. In addition, it is the responsibility of the individual executing this agreement that the data being provided be handled and used pursuant to the rules and regulations of their institution's IRB. Any failure to conform to these restrictions results in a denied access to the dataset.

Consent

Restrictions for use of WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset:

1. Requests for the dataset: All requests for this biometric dataset records are submitted to the WVU Principal Investigator.

2. Redistribution: Without prior approval from WVU Principal Investigator, the entire or part of the biometric dataset will not be further distributed, published, copied or disseminated in any way or form, either for profit or not. This also refers to further distribution of the dataset records to any other facility or organizational unit, other than the one mentioned in the request.

3. Modification and Commercial Use: Without prior approval from the WVU, the WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset Collection, in whole or in part, may not be modified or used for commercial purposes. The license granted herein is specifically for the internal research

purposes of Researcher, and Researcher shall not duplicate or use the disclosed WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset Collection, its content, or any seal, logo, mark, or phrase associated with or owned by WVU, to manufacture, promote, or sell products or technologies (or part of it) either directly or indirectly for commercialization or any other direct for-profit purpose without the prior written permission of WVU.

4. Publication Requirements: Those seeking to include renderings of more than 10 images from WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset or more than 5 images belonging to the same subject in reports, papers, and other documents to be published or released must first obtain approval in writing from the WVU Principal Investigator. In no case should the iris images be used in a way that could cause the original subject embarrassment or mental anguish. Under no circumstances, images of subjects who have not provided consent for publishing their images, should be published as per the WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset Subject Release Agreement.

5. Citation: All documents and papers that report on research that uses the WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset will acknowledge the use of the dataset by including an appropriate citation that will be provided upon request by the WVU Principal Investigator.

6. Signature: The Database Release Agreement has to be signed by the requestor's supervisor.

7. Indemnification: Researchers agree to indemnify, defend, and hold harmless the West Virginia University, and its Board of Governors, officers, employees, and agents, individually and collectively, from any and all losses, expenses, damages, demands and/or claims based upon any such injury or damage (real or alleged) and shall pay all damages, claims, judgments or expenses resulting from Researcher's use of the WVU Unconstrained Multi-sensor Iris Presentation Attack Dataset Collection.
